Tafels - Tables - Tische - Tables

HPL versus MELAMINE - Le stratifié par rapport à la mélaminé - HPL versus MELAMIN

- NL** 1) Slijtvastheid : HPL heeft een overlay (beschermingslaag), melamine – tenzij vloerkwaliteit – heeft dat niet.
2) Stootvastheid/slagvastheid : HPL heeft een “backing” i.e. een harslaag, melamine niet; het melaminepapier wordt rechtstreeks op de spaanplaat aangebracht.
3) Prijs : HPL is gevoelig duurder dan melamine.
- FR** 1) Résistance à l'usure : le stratifié comprend une couche de protection, la mélaminé - sauf la qualité pour le sol - n'a pas cette couche.
2) Résistance aux coups/chocs : le stratifié comprend une couche support en résine, la mélaminé pas ; le papier mélaminé est appliqué directement sur le panneau aggloméré.
3) Prix : le stratifié est sensiblement plus cher que la mélaminé.
- DE** 1) Abnutzungsresistent : Laminat hat eine Schutzschicht, Melamin - außer der Bodenqualität - has diese Eigenschaft nicht.
2) Stoßfestigkeit/Schlagfestigkeit : Laminat hat eine Schutzschicht aus Harz, Melamin nicht, das Melaminpapier wird direkt auf die Spanplatte angewendet.
3) Preis : HPL ist erheblich teurer als Melamin.
- EN** 1) Wear resistance : HPL has an overlay (protective coating), melamine – unless it is of flooring quality – has no overlay.
2) Shock/impact resistance : HPL has a backing, i.e. a resin layer, melamine not; melamine paper is applied directly to the chipboard.
3) Price : HPL is significantly more expensive than melamine.

Laminaat / stratifié / Laminat / High Pressure Laminate

HPL

Laminaat, slijtvast.

Stratifié, résistant à l'usure.

Laminat, Abnutzungsresistent.

Laminate, wear-resistant.

HA

Laminaat, **structuur synchroon** aan het decor voor een optimale optische imitatie van echt hout.

*Stratifié, **structure synchrone** au décor pour une imitation optique optimale du vrai bois.*

Laminat, **Struktur synchron** zum Dekor für optimale optische Imitation von echtem Holz.

*Laminate, **structure synchronised** with the decor to create the best optical imitation of real wood.*

HM

Laminaat, soft touch, vingerafdrukken gemakkelijk te verwijderen. Onderhoud met wonderspons.

Stratifié, toucher doux, facile d'ôter les traces de doigts. Entretien avec éponge magique.

Laminat, soft touch, Fingerabdrücke leicht zu entfernen. Pflege mit GommeMagique.

Laminate, soft touch, fingerprints easy to remove. Maintenance with wondergum.

Melamine / mélaminé / Melamin / melamine

MEL

Melamine, minder slijtvast maar goedkoper dan laminaat en bij normaal gebruik geschikt voor jarenlang plezier.

Mélaminé, moins résistant mais meilleur marché que le stratifié et approprié pour plusieurs années de plaisir en usage normal.

Melamin, weniger Abnutzungsresistent aber billiger als Laminat und bei normalem Gebrauch für jahrelanges Vergnügen geeignet.

Melamine, less wear-resistant but cheaper than HPL and in normal use suitable for many years of pleasure.

MHA

Melamine, structuur synchroon aan het decor voor een optimale optische imitatie van echt hout.

Mélaminé, structure synchrone au décor pour une imitation optique optimale du vrai bois.

Melamin, Struktur synchron zum Dekor für optimale optische Imitation von echtem Holz.

Melamine, structure synchronised with the decor to create the best optical imitation of real wood.
