product profile for upholstery fabrics in living areas | according to DIN EN 14465:2006

roll length:	~ 45 m	width:	142 cm +   - 2 cm
useable width:	142 cm +   - 2 cm	weight m DIN EN 12127:	525 g +   - 5 %
material thickness:	1.0 mm +   - 2 %	weight m <sup>2</sup> DIN EN 12127:	370 g +   - 5 %

composition surface | EU 1007/2011: 100% polyester

composition base | EU 1007/2011: 100% polyester

abrasion test | EN ISO 12947-1,2: 35.000 cycles (Martindale) category A

pilling test | EN ISO 12945-2 (2.000T): 4-5 category A

fastness to light | EN ISO 105-B02-2:  
bright colours: 5 category B  
fastness to light | EN ISO 105-B02-2:  
dark colours: 4-5 category B

permissible colour tolerance | DIN EN 20105-A02: min. grade 4 passed

#### Instructions for use

A certain degree of fading of the colours, due to exposure to light or abrasion through use over time, is also part of the nature of microfibre fabrics. We do not take over a warranty on damage, which resulted from inappropriate use, chemical cleaning or additional impregnation.

#### Cleaning

Do not apply any aggressive cleaning products that could potentially damage your new upholstery fabric. Remove stains immediately, using a soft cotton cloth and a gentle circular motion, working from the outer edge inwards. Before using any cleaning and care products, always test these first for compatibility on a hidden part of the material.

Plenty of other important details and useful tips on the optimum care of upholstery fabrics can be found on our special website at [www.2-clean.de](http://www.2-clean.de)

REACH

#### REACH Regulation
